- Dividend of Rs. 4 per share

Commenting on the results, Mr. C.S. Nopany, Co-Chairperson, Avadh Sugar & Energy Ltd said:

“India is under the midst of second wave of covid-19 pandemic which may have impact on the Indian economy, we believe the large vaccination campaigns will gradually drive the economy towards normalcy. Sugar industry is well poised to benefit from both domestic as well as global factors, which includes tight global demand and supply situation, favorable policies, push for higher ethanol for blending in India and higher ethanol production capacity addition will keep the sugar inventory under control and price firm. Further, the shortfall in global sugar production has resulted in sharp increase in global/domestic prices of sugar which is likely to sustain.

Ethanol that is now a structural change for sugar industry will further enhance the operational profitability of integrated sugar mills. As per ISMA, during April 2021 many states including Uttar Pradesh have achieved a blending of 10% and GOI’s vision to increase the blending to 20% will thrust the ethanol production going forward.

The Board has approved a capital expenditure of Rs. 135.15 Cr, for debottlenecking & other efficiency improvement measures and expansion of distillery capacity to 320 KLPD.”
